

Global Outsourcing

Global Outsourcing: a central approach to local compliance delivery, secured and structured through state-of-the-art tooling.

In a fast changing economy, meeting global compliance obligations is a complex and time consuming business. How can you keep up with local rules and regulations in the jurisdictions where your company has a presence, while the business is asking for your value-add in other areas? How do you make sure the filings and payments are done timely, regardless of the way that your business is organized? How can you ensure continuity in your organization and team in regard to compliance? The Global Outsourcing experts of BDO have implemented an effective and proven methodology to unburden clients from multi-country compliance obligations. Through a dedicated team and tooling, your global compliance is recorded,

monitored and executed, allowing you a 24/7 overview of your global compliance status via your dashboard. The local BDO network of 162 BDO firms worldwide will ensure that your compliance is taken care of according to local standards and language, directly fed back into your tooling.
